TARGET AUDIENCE

Target Audience: Brain injured survivors, their families, military/veterans, healthcare professionals, attorneys, educators and students

OBJECTIVES

Upon completion of this conference, the participant will be able to:

- 1) Discuss the emerging advances and innovations in diagnosis and treatment for structural and physiological brain pathology.
- 2) Identify effective management strategies for treating and assisting clients with neurological injuries.
- 3) Illustrate the individual and collaborative professional approaches and tactics that facilitate progress toward healing and successful recovery to the extent possible.
- 4) Describe the particular problems that children with neurological injuries or pathologies and the indicators thereof experience in healthcare settings, schools and in recreational situations.
- 5) Explain the value of comprehensive, interdisciplinary research in the etiology, treatment and functional restoration for persons with neurological health problems.

⇒ Participants may attend sessions on different tracks.
