## TARGET AUDIENCE

**Target Audience:** Brain injured survivors, their families, military/veterans, healthcare professionals, attorneys, educators and students

## OBJECTIVES

Upon completion of this conference, the participant will be able to:

- 1) Describe the varied results of a blow, jolt, or penetrating injury to the brain that results in altered brain function and what is known as traumatic brain injury.
- 2) Examine the treatment and rehabilitative strategies that are emerging in the management of traumatic brain injury.
- 3) Interpret the particular issues of children with brain injuries and compare their needs with those of adults.
- 4) Appraise the special concerns of veterans with traumatic brain injuries that result from military action and the unique interventions they may require.
- 5) Support the need for basic physiological and advanced treatment research for the improvement of brain injuries.

- ⇒ Participants may attend sessions on different tracks.
- ⇒ Survivors and family members are eligible for raffle prizes awarded at lunch. Get your ticket at Registration.
